The revolutionary manhole inspection system

IBAK PANORAMO® SI

Proud recipient of the NASTT 2010
INNOVATIVE PRODUCT OF THE YEAR

The smaller, more agile and economical
IBAK PANORAMO® 150

The revolutionary PANORAMO® systems from IBAK change the way you inspect pipelines and manholes. The two digital, still cameras capture 360° of the pipeline or manhole and provide you with incredible data and image resolution. Never stop to look at observations. Collect image data in the field and conduct your assessment analysis back in the office, making your process safer,
