Introducing the revolutionary PANORAMO SI Manhole Inspection System

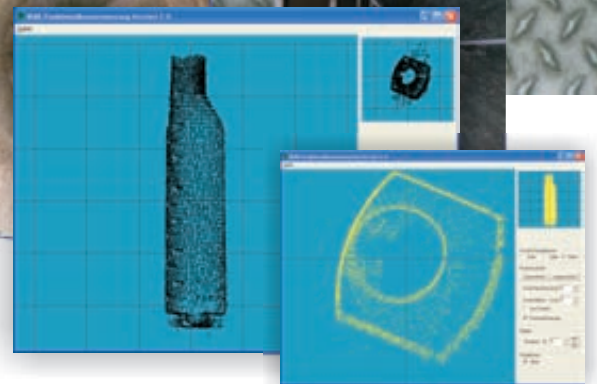

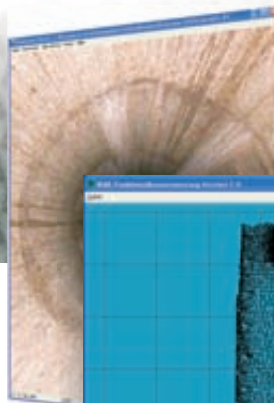

see more at www.rapidview.com

Inspect a 50' deep manhole in under 3 minutes....

- 100% capture of geometric and visual data.
- For vertical shafts 16" to 10 feet diameter or more!
- Safer, faster and more thorough than traditional methods.
 - "Unfolded" sidewall view for visual measurement
 - Verify diameter and defects in 3-D model
- View any feature of the manhole anytime, from any angle!

Capture visual and geometric data faster and safer than ever before!
